

Visualization Matching Game

R.No: 30 Reg. No: 192524110 Name: Pranayaa S

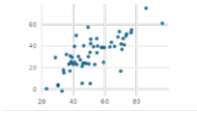

Each chart on the left (A-J) matches exactly one description on the right (1-10). Write the matching number next to each letter's blank.

A. 10

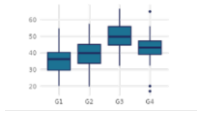

1. D
Shows the distribution of a single continuous variable

B. 7

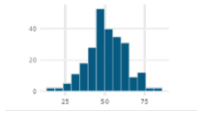

2. I
Shows how a value changes over time

C. 8

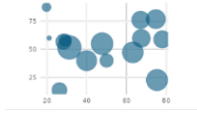

3. H
Shows how a cumulative total changes over time

D. 1

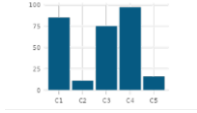

4. J
Shows magnitude across two categories using color intensity

E. 9

5. G
Shows how parts contribute to a whole

F. 6

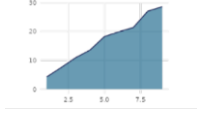

6. F
Compares amounts across separate categories

G. 5

7. B
Shows the relationship between two continuous variables

H. 3

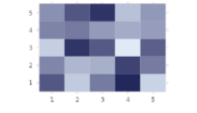

8. C
Compares distributions across groups and highlights outliers

I. 2

9. E
Shows three variables at once using position and size

J. 4

10. A
Shows part-to-whole composition across categories

Visualization Matching Game — Set 30 Answers

Name: Pranayaa S Roll No: 30 Reg No: 192524110 Slot D

Chart	Chart type	Match	Why
A	Stacked bar chart	10	Each bar is split into segments, showing how each category is made up of parts.
B	Scatter plot	7	Each dot pairs two continuous values, so the cloud shows how they relate.
C	Box plot	8	Boxes and whiskers compare spread across groups, with outlier dots marked.
D	Histogram	1	Adjacent bins count how often values occur for one continuous variable.
E	Bubble chart	9	X and Y position plus bubble size encode three variables at once.
F	Bar chart	6	Separate bars compare amounts across distinct categories.
G	Pie chart	5	Slices of one circle show each part's share of a single whole.
H	Area chart	3	The filled area keeps rising, showing a running (cumulative) total over time.
I	Line chart	2	Points joined in time order show a value going up and down over time.
J	Heatmap	4	A grid of two categories where colour darkness shows magnitude.

Matching order by description: 1-D, 2-I, 3-H, 4-J, 5-G, 6-F, 7-B, 8-C, 9-E, 10-A.
